Background Information

I am currently in my first year of the Master's degree in Informatics: Programming and System Architecture at UiO. I recently finished a Bachelor's degree in Informatics: Design, use and interaction at the University of Oslo. I am especially interested in the combination of health care and software platforms, and my dream is to work as a full-stack developer to make robust and effective software that meets the user needs. I am also interested in software testing.

Education

University of Oslo, MS in Informatics: Programming and System Architecture — Aug 2025 – current
Korea University, Exchange semester — Aug 2024 – Dec 2024
University of Oslo, BS in Informatics: design, use and interaction — Aug 2022 – June 2025
University of Oslo, History 1-year-course — Aug 2021 – June 2022

Selected experience

Software Engineer, PastPort (internship) — Des 2025 – Feb 2026

- Full-stack developer of PastPort App
- Implemented the database connected to the app
- Designed the user interface in Figma
- Implemented the design in front-end using React and Python
- Made the organization website (pastport.no)

Software Engineer, University of Oslo (summer internship 2025) — June 2025 – Aug 2025

- Full-stack developer of an interactive game for students
- Designed the UI for a large part of the game in Figma
- Implemented the design in front-end and back-end using React and Python
- Tested and fixed the finished product against the WCAG principles.
- Created an algorithm to create an adaptive task-collector for the game.

Assistant at hostpital, Sykehuset Innlandet - Reinsvoll sykehus — June 2024 – current

- Summer substitute at psychiatric hospital for the last two summers.
- Took care of patients by encouraging them to to activities, and assisted doctors and nurses in their daily tasks at the hospitals.

Exchange ambassador, University of Oslo — June 2024 – June 2025

- Represented UiO in Asia by arranging and speaking at exchange events

Facilities Manager, FourFM — May 2023 – May 2025

- Working as a substitute at IBM Norway and Kyndryl
- Responsible to fix and make sure the work office has all the right equipments and that all technologies work correctly at all time.

Extracurricular activity

Volunteer at Red Cross Sept 2025 – current

- Giving lectures and courses
- Responsible for holding monthly first aid courses and introductory courses for existing and new Red Cross members.

Fagutvalget ved Institutt for Informatikk, Student association at UiO Jan 2025 – current

- Board member and promotion responsibility
- The association is the link between the students and the administrative at the university, and as a board member I am responsible for representing the students' voice.

IFI Rastløs, Student association at UiO May 2025 – current

- Board member and promotion responsibility
- The association's goal is to encourage to physical activities outside of the university campus.

Projects

IN1020-Universet (summer internship 2025 - UiO)

- Developed an award-winning game (utdanningsprisen 2025) focusing on educational technology, with the aim of students playing the game to learn the syllabus in their classes at the University of Oslo.
- Tools Used: Python, React, JavaScript, HTML, CSS, Figma

AboatWeather (IN2000 project)

- Developed an Android App aiming to give an organized view of future boat trips according to weather-forecast and ocean alerts.
- Tools Used: Android Studio, Kotlin, Jetpack Compose, Mapbox

Technologies

Programming and Scripting: Python, JavaScript, Java, Kotlin

Frameworks and Libraries: React, Docker

Development Tools: Git

Technologies: Android Studios, XCode, vsCode, Figma
